

C_{HILD}S_{UPPORT}O_{KLAHOMA}

THE Oklahoma Child Support Guidelines Calculator!

For over 10 years, Oklahoma Family Law Lawyers have been using **CSO** to accurately calculate child support. It's an inexpensive, easy to use computer program that makes child support calculations a snap.

This popular program has been completely updated in accordance with the revised Oklahoma Child Support Guidelines (*eff. July 1, 2009*).

- ◆ **CSO** contains all the necessary options to enable you to correctly calculate child support obligations under the new guidelines.
- ◆ All data entry cells are on a single computer screen, and there are pop-up help boxes to explain each entry.
- ◆ **CSO** is written just for Family Law Lawyers. It works right and it's easy to use. It will save you money and save you time.
- ◆ The entire guidelines form prints on just two pages, not five or six as with some spreadsheet calculators (see enclosed for sample).

A **CSO** single user license sells for the affordable price of **\$170**. 

The update price is just \$125.

(The program is sold with a money back guarantee!)

A sample data entry screen is printed on the reverse side of this letter.

The program is described in detail and available for purchase at ***www.legalmath.com***

Please visit the web site, call, or email if you have questions.

*P.S. When you visit our web site please be sure to look at our **Legal Math** program which is currently being used by over 200 Oklahoma Family Law lawyers, Courts and Child Support Enforcement agencies.*
